

COCKBURN CEMENT

**CHAPTER TEN OF DOCUMENT:
LONG-TERM SHELLSAND DREDGING, OWEN ANCHORAGE
ENVIRONMENTAL MANAGEMENT PROGRAMME**

MAY 2003

**CHAPTER TEN OF DOCUMENT:
LONG-TERM SHELLSAND DREDGING, OWEN ANCHORAGE
ENVIRONMENTAL MANAGEMENT PROGRAMME**

Cockburn will actively continue the mapping and monitoring of marine habitats in Owen Anchorage (including West Success Bank). Detailed high resolution aerial photography will be undertaken annually with detailed ground truthing each five years. The next ground truth survey is scheduled for 2004.

Results will be reported annually.

WORK UNDERTAKEN AS OF MARCH 2010

Work undertaken on the marine habitats of Owen Anchorage and West Success Bank includes annual aerial photography since 2003, and detailed ground-truthing exercises in 2004 and 2009. More detail can be found in Section 18 of Cockburn's last five year performance review report and Section 8 of Cockburn's most recent annual compliance report. Both documents are provided as supplementary information to this EMP.
